The contract will be awarded in terms of Regulation 6: Preferential Procurement Regulations, 2017) pertaining to the Preferential Procurement Policy Framework Act, 2000 (Act 5 of 2000).

The following formula will be used to calculate the points for price

90/10

$$P_s = 80 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right)$$

$$P_s = 90 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right)$$

Where

P_s = Points scored for price of tender under consideration

P_t = Rand value of tender under consideration

P_{\min} = Rand value of lowest acceptable tender

The 80/20 or 90/10 price and preference points ranking will be performed on the bids that meet the functionality criteria. Based on where the land is located, the price and preference points evaluation will be performed within the respective regions.

Process of award

Bidders must note that the GPF reserves the right to appoint more than one service provider.

- Demand analysis and beneficiary identification confirmation: The GPF will ascertain from the GDHS the areas where there is a demand and whether the relevant beneficiaries have been identified.
- In the case where the land is not located in areas where there is a demand, the GPF and GDHS reserve the right not to conclude any contract with the bidder until such a time that the demand or need becomes apparent and the beneficiaries have been identified.
- The GPF will be guided by the annual provincial budget threshold for the Rapid Land Release programme in terms of how many service providers they will be able to appoint.

Market Value – The GPF will appoint three (3) qualified property valuers to provide independent property valuation reports to verify that the offered price for the serviced stands is market related. In the case where

the offered price is not market related, the GPF and GDHS reserve the right to enter into negotiations with the bidders on the offered price.

If the price offered by a tenderer is not market related, the GPF may not award the contract to that tenderer. The GPF will negotiate a market-related price with the tenderer scoring the highest points or cancel the tender; if the tenderer does not agree to a market-related price, negotiate a market-related price with the tenderer scoring the second highest points or cancel the tender; if the tenderer scoring the second highest points does not agree to a market-related price, negotiate a market-related price with the tenderer scoring the third highest points or cancel the tender. If a market-related price is not agreed as envisaged, the GPF may cancel the tender.

Bidders are required to complete the table below.

Table 5 – Pricing Schedule

Average Square Meter Per Stand (a)	
Price Per Square Meter (b)	
Price Per Stand (c) = (a x b)	
Total Number of Stands (d)	
Total Price (Incl. VAT) (e) = (c x d)	

The unit price per square meter (Incl. VAT) will be utilised for the 80/20 or 90/10 price and preference points evaluation within OR in and around the specific demand site to determine which bidders to award first.

The purchase price for the offered stands will be zero-rated in terms of the provisions of section 11(2), read with Section 8(23) of the VAT Act, and that payment of the purchase price is in terms of a “national housing programme” as defined in Section 3(5) of the Housing Act.
